Earl C. Mosser Farm
Redhouse
Private

1906

The Earl Mosser Farmhouse, built in 1906, is a typical farmhouse. It is a 4 bay by 2 bay 2-story double entrance frame house based on the ell-plan. It rests on a stone foundation and has weatherboard siding with cornerboards, now covered with asphalt siding except under the facade porch.

There is a frame bank barn and 2 frame sheds north of the house. A wood form, cast-concrete springhouse lies just NE of the house and a frame garage to the east of the house.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Earl Mosser Farm is situated in a small valley created by Sand Spring Run, just west of Backbone Mountain.

The house is a $\frac{3}{4}$ bay by 2 bay 2-story double entrance frame house based on the ell-plan. It rests on a stone foundation and has weatherboard siding with corner boards, now covered with asphalt siding except under the facade porch.

The farm lies on the north side of Gnegy Church-Red Oak Road; the facade of the house faces south towards the road.

A wood porch runs along the facade supported by a wood post foundation which is covered with cross hatched lattice. The tapered square wooden columns supporting the porch roof rest on an enclosed wood shingled balustrade.

There is a 1-story bay window on the W elevation of the house and a partially enclosed 1-story shed porch on the E elevation of the ell.

The windows are 2/2 sash with plain board surrounds and drip molded windowheads. There is a small arched window in the attic story of all gable ends.

There is a frame bank barn and 2 frame sheds north of the house. A wood form, cast-concrete springhouse lies just NE of the house and a frame garage to the east of the house.
